New York, NY 10065

Dear Ryan,

Thank you so much for donating to our playroom. The PlayStation you gave us has been here for two days, and it has already brought so many smiles. It has been in use by our patients pretty much every hour the playroom has been open. The love and positive energy you guys have sent will always be a part of our environment, and will make so many more feel better every day.

Although I never hope to see you in the hospital again, if you're ever here I would love to hang out with you again. You brought all that energy to the playroom and made our slime time even more fun than it would have been.

Sincerely,

Alex
